

# 2017 WaterWorks Competitive Grants

---

## King County- Waterworks

### Overview

---

#### Secondary Contact\*

*Please list an additional contact person for this proposal.*

*Character Limit: 250*

#### Secondary Contact Email\*

*Character Limit: 254*

#### Project Summary\*

*Provide a brief summary of your project.*

*Character Limit: 800*

#### Total Amount Requested\*

*This is the amount you are requesting in grant funds, and needs to be between \$20,000 and \$250,000. Do not include match in this number.*

*Character Limit: 20*

#### Partners

*Project partners are organizations that are actively involved in one or more stages of your project, such as planning, outreach, or implementation. Letters of support from project partners are required for the full application but not for the LOI.*

*Character Limit: 200*

#### Location\*

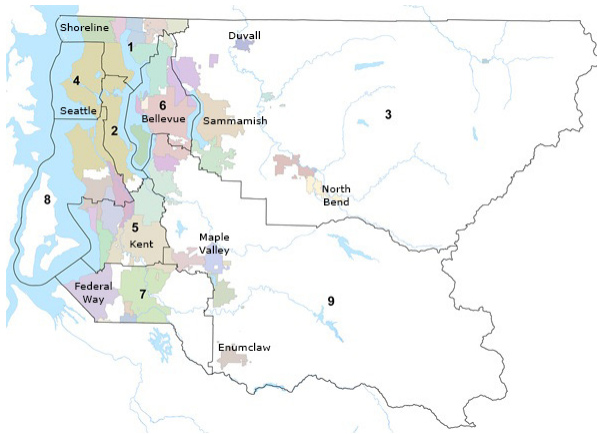

*Describe the location or area where your project will take place. Point locations can be an address, intersection, or description of stream or river (e.g. 201 S Main St, Seattle; 2nd Ave S and S Main St, Seattle; river mile 5-8 of the Duwamish River).*

*For areas, you can use a description (e.g. within the city of Tukwila, Sammamish Valley, Highline School District).*

*Character Limit: 250*

#### King County Council Districts\*

*Check all boxes of King County Council Districts where your project will take place. See map below or go to Council district finder to determine the district number for different areas or for a specific address.*

District 1

District 2

District 3

District 4

District 5

District 6

District 7

District 8

District 9

## Project Information

### Project Name\*

*The name of the project should be short (100 characters max), descriptive, and unique to make it useful for future tracking.*

*Character Limit: 100*

### Goals, Activities, Outcomes\*

*Describe the overall goals of your project, main activities, and the outcomes you hope to achieve. Include measurable goals, such as number of people you plan to reach, number of acres of area restored, number of trees planted, number of gallons of stormwater treated.*

*Character Limit: 2000*

### Activity types\*

*Please check all activity types that are included in your proposal.*

Community engagement and stewardship

Education and outreach

On-the-ground; physical improvements

Research

Source control and pollution prevention  
Technology development

### **Primary Activity Type\***

*Please select one of these activity types that represents the main focus or most effort of your proposal.*

Community engagement and stewardship  
Education and outreach  
On-the-ground; physical improvements  
Research  
Source control and pollution prevention  
Technology development
